IDEOLOGY

We believe that profit has no significance if the organization does not play its role of giving back the due to the society environment which forms the company's corporate social responsibility.

MEDIUM & HEAVY DUTY PALLET RACKING SYSTEM

- Sky Storage conventional pallet racking is generally laid out with single-entry wall racks on the perimeter sides and double-entry racks in the middle. The working aisle measurement between
- each rack and the rack height depends upon the characteristics of the fork-lift trucks or lifting
- devices, pallet size and the height of the warehouse itself. Holding stock is an extremely
- complicated job especially for bulky tools such as auto parts, paper products, liquids and tires.
- We offer an extensive range of pallet racking system that helps in keeping the inventory well organized to maximize the storage space.

LIGHT DUTY RACKING SYSTEM

- Sky Storage Light Duty Racks are ideal for a variety of applications including offices, Tool rooms, retail environments and storage areas. It's a cost effective, light duty bolted system, ideal for smaller or
- Bulkier but Lighter applications. It is available at a fraction of the cost of Pallet racking.
- Shelves can be easily adjustable as per height required of each compartment. Shelves can be customized in a number of standard sizes and heights.
- These racks are available in a plethora of sizes, finish and design to meet with the demands of different clients. Our range of slotted angle racks offers a space
- Our range of slotted angle racks offers a space for storing number of items in an organized manner.
- With our technically advanced manufacturing unit, we use the finest quality CR and HR steel for delivering Slotted Angle Storage Systems.

MULTI-TIER RACKING SYSTEMS

- Sky Storage Multi-Tier shelving and racking is mainly used for storage and order picking of non-
- Palletized goods, bins, cartons or other storage units containing small parts and components and for bulk storage.
- The modular system accepts numerous accessories which can also be added later on.
- Designed to suit diverse requirements, these accessories allow storing of almost all goods.
- Multi-Tier shelving and racking provides good space utilization which directly results in multiplication of storage space of your warehouse, store and enhance productivity.
- Rigid and have strong life.

SUPERMARKET RACKING SYSTEMS

- Sky Storage Display racks would serve the purpose only if the displayed items are exhibited properly.
- Our display racks are available in different makes and types. One such variety is our vertical display
- Different items are displayed systematically in a vertical manner. Along with the standardized sizes
- These can also be customized as per the requirement of our clients.
- We offer exquisitely designed Display Racks that are used to display various items in malls, stores and other shopping areas.
- All metal shelving units are designed with interlocking components that fit together without nut or bolts. Clients can avail our range in different color's sizes and dimensions.

MODULAR MEZZANINE FLOORS

- Sky Storage Mezzanine Floors are fabricated, supplied and installed as per the clients demands.

- These floors can be made on top of heavy-duty pallet racks, or just with heavy duty pillars, or with SlottedAngles. Our range can be effortlessly relocated, enlarged or dismantled with the property of highload bearing overhead levels. The range is coming with heavy duty columns which provide stiff hold,further helping in the operation of the lower level. These floors are easily installed in the office,

- storage or manufacturing areas at lesser costs, and can completely utilize the existing overhead space and gain valuable working. It is made with High quality anti corrosive material.

MOBILE COMPACTOR

- Sky Storage Mobile Compactors are designed for use in places where there are limitations on available space.
- Our range of high-quality mobile racks have aisles only on one side. These high storage capacity racks that we manufacture and supply are available in two types:
 - Manual (Push & Pull type)
 - Mechanically operated (chain driven) system.
- The choice depends on the requirements and space constraints.
- Our rail mounted racks are suitable for all kinds of storage requirements.
- Say goodbye to wasted space and hello to more organized, Elevate your space with our storage solutions.
